Section 4: FIRST AID

Eye (contact)  Hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes.

Skin (contact)  Remove contaminated clothing and flush skin and hair with running water.

Inhalation (Breathing)  Not volatile at room temperatures.

Ingestion (Swallowing)  DO NOT induce vomiting. For advice, contact a Poisons Information Centre (Phone: 13 11 26) or a doctor.

Advice to Doctor  Treat symptomatically for highly alkaline solution.

First Aid Facilities  Ensure an eye bath and safety shower are available and ready for use.

Additional Information  No aggravated medical conditions are known to be caused by exposure to this product.

Section 5: FIREFIGHTING MEASURE

Suitable Extinguishing Media  Solution does not burn. Use extinguishing media suited to the materials that are burning. E.g. dry chemical, CO₂ or water spray.

Hazards from Combustion Products  Carbon dioxide, carbon monoxide, nitrogen oxides and other toxic gases may be produced in the case of fire or during thermal decomposition. Corrosive alkali vapours may be present.

Precautions for Fire Fighters and Special Protective Equipment  Firefighters should wear full protective clothing including self contained breathing apparatus and chemical splash suit. Ensure that no spillage enters drains or water courses. Remove from the vicinity containers not involved in the fire.

Additional Information  Hazchem Code- 2R

May generate flammable hydrogen gas if in contact with zinc, tin, magnesium or aluminium.

Section 6: ACCIDENTAL RELEASE MEASURES

Spills / Clean up  For spills less than 1L – Clean up personnel should wear personal protective equipment. Restrict access to area until completion of cleanup. Stop leak if safe to do so. Contain spill with absorbent material, such as sand, vermiculite or other inert material. Prevent spill entering sewers or waterways. Collect and dispose of spilled material according to local regulations. Wash away remnants with copious amounts of cold water. Clean area by working from the periphery to the centre of spill or from the edge of the room to the centre.
Section 7: HANDLING AND STORAGE

Precautions for Safe Handling
After removing excess soil, apply product to equipment to be cleaned, then heat equipment to approximately 80°C for 5-10 minutes. Do not allow equipment to dry-out.
Contact ALL-PRO sales representative for advice when using this product for any application other than that outlined on the label or technical bulletin.
Do not use for manual dishwashing.
Do not mix with hot water.
Any non-authorised use of this product may result in damage or personal injury.
Store product in original container.
Wash hands and face thoroughly after handling and before work breaks, eating, drinking, smoking and using toilet facilities.

Conditions for Safe Storage
Store in a cool, dry, well ventilated area away from incompatible materials. Keep container tightly sealed.
